

SAVING ENERGY

@eko Park

Life is a lot greener here at eko Park apartments! All of our apartments use a high efficiency heating and cooling system with programmable thermostats! Our toilets are dual flush providing water savings by having 2 options! All of our appliances are Energy Star rated and all of our light bulbs are fluorescent!

Not only are our residents living greener, but our business runs greener too! We have incorporated Solar Panels to provide energy for the Clubhouse and Joes Coffee Shop, recycled paper for leases and other office paperwork, and we also capture rain water from the gutters to water our flower beds with!

1744 W. Catalpa
Springfield, MO 65807
